Setting Up Document Structure

This version is testing and learning how to ensure my local documents are updated to GitHub folloing a tutorial!

I will now be modifying this report, staging and commiting changes and then pushing to GitHub.

Let's create a test plot of distance (miles) and speed (mph)

```
plot(cars, col = "red", xlab = "speed (mph)", ylab = "distance(miles)")
```

A summary of the data frame is given below

```r
library(knitr)
```

```
## Warning: package 'knitr' was built under R version 4.3.3
```

```r
kable(summary(cars))
```
